

Nutraceutical Manufacturing, Retail and Distribution Company

Business Challenges

- Complex process for multi-company financial consolidation
- eCommerce not integrated into financials
- Manual tracking of intercompany transfers
- No visibility for demand planning
- No centralized purchasing
- Using contract manufacturing for products
 - No automated system to track products with contract manufacturers
 - Need for quality assurance testing and tracking once product is delivered from contract manufacturers
- Inadequate inventory and warehouse management
 - Shipping 2,000 products a day

Tridea / Dynamics AX Solution

- Replace legacy, disparate systems with Dynamics AX
 - 60 AX users (financials, purchasing, operations, inventory/warehouse management)
- Automated multi-company financial consolidation and intercompany transactions for 7 legal entities
 - Visibility into critical financial data and reports in real-time
- Centralized purchasing and planning to reduce inventory costs and ensure product availability
- Integration to online retail and sales order processing
- Automate complex price agreements for promotional products and volume discounts
- Streamlined and efficient warehouse and shipping operations
- Traceability and quality control for products from in-house and contract manufacturers

powerful ideas. smart business.
